Dolina Noteci SUPERFOOD turkey recipe is a complete dried food for adult dogs of all breeds, which covers the daily requirement for all nutrients. The varied and valuable composition includes 80% fresh meat and animal products from turkey, beef, chicken and pork, which are a source of protein with very high digestibility, rich in all essential amino acids. An innovative method of production based on mild drying of meat and animal products and appropriate selection of raw materials makes the food easily digestible and adapted to the nutritional requirements of adult dogs. The warm air drying process makes it possible to obtain 100 g of food from as much as 200 g of meat and offal, while retaining its palatability and the necessary nutrients. Selection of raw materials rich in various tissues such as muscle, connective tissue and heart provides both the variety of nutrients and textures which stimulate digestive processes in the most effective way. Dolina Noteci SUPERFOOD turkey contains fruit and vegetables such as carrots, spinach, blueberries, raspberries, cranberries, tomato, oranges, peas and goji berries, which make a valuable addition to a daily diet of micronutrients and have a significant impact on the digestive tract of an adult dog. It also contains flaxseed, Mojave yucca and seaweed, which support the proper functioning of the digestive system, as well as rosemary, which has antioxidant properties. Dried brewer's yeast and chicory inulin are sources of prebiotics, which help to maintain healthy intestinal flora. Both the composition of the dried food and its consistency guarantee a high palatability. Compliance with the recommended amount of food prevents dogs from becoming overweight or obese.

Composition: turkey 26% (meat, hearts, liver, gizzards), beef 26% (meat, hearts, tripe), chicken 18% (meat, hearts, liver), pork 10% (meat, lungs, kidneys), chicken fat, eggs, pea starch, carrots, minerals, powder cellulose, spinach, blueberries, raspberries, cranberry, tomato, Plantago seed, oranges, peas, dried brewer's yeast (containing prebiotics: mannan-oligosaccharides and β -glucans), lecithins, chicory inulin (prebiotic), goji berries, linseed, Mojave yucca, seaweed, New Zealand green-lipped mussel, glucosamine, chondroitin sulphate, dried rosemary 0.02%.

Technological additives: natural antioxidants (tocopherols, rosemary extract).

Analytical constituents: crude protein – 36%, crude fat – 18%, crude ash – 7%, crude fibre – 3%, moisture – 9%.

Additives: nutritional additives/kg: Vitamin D3 – 450 IU, Vitamin E – 40 mg, Zinc (zinc oxide) – 30 mg, Manganese (manganese (II) oxide) – 2 mg, Copper (copper (II) sulphate, pentahydrate) – 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) – 0.3 mg.

Energy value: 374 kcal / 100 g.

Dolina Noteci SUPERFOOD beef recipe is a wholesome dried food intended to meet the nutritional demands of adult dogs of all breeds; its composition includes nutrients and biologically active compounds. 100 g of the finished product is made from as much as 200 g of fresh meat and animal products from beef, chicken and pork. The mild drying process preserves as many of the nutrients as possible from the raw materials used to make the food. Meat and products of animal origin from beef provide valuable protein rich in amino acids and are a source of elements necessary for good health - selenium, iron and copper. Beef is also a source of the important vitamin B12 and fat-soluble vitamins. Addition of chicken egg and chicken fat enriches Dolina Noteci SUPERFOOD with essential n-6 unsaturated fatty acids. The biologically active compounds contained in carrots, spinach, blueberries, raspberries, oranges and peas have antioxidant and anti-inflammatory properties. They have a significant effect on inhibiting changes associated with ageing, the development of atherosclerosis and liver damage. Gastrointestinal functions, both digestive and secretory, are supported through supplementation with chia seeds, linseed, Mojave yucca and seaweed. Addition of brewer's yeast and chicory inulin improves dog's fur condition and maintains proper intestinal flora composition. Green lipped mussel, which is necessary for maintaining appropriate condition of joint cartilage and has anti-inflammatory properties, is a valuable addition to Dolina Noteci SUPERFOOD. Compliance with the recommended amount of food prevents dogs from becoming overweight or obese. A good supplement to a diet based on dried petfood is to give your dog fresh water to drink, which naturally supports absorption of its ingredients.

Dolina Noteci SUPERFOOD goose recipe is a complete dried food for adult dogs of all breeds, which covers the daily requirement for all nutrients. The varied and valuable composition includes 80% fresh meat and animal products from goose, beef, chicken and pork, which are a source of protein with very high digestibility, rich in all essential amino acids. An innovative method of production based on mild drying of meat and animal products and appropriate selection of raw materials makes the food easily digestible and adapted to the nutritional requirements of adult dogs. The warm air drying process makes it possible to obtain 100 g of food from as much as 200 g of meat and offal, while retaining its palatability and the necessary nutrients. Selection of raw materials rich in various tissues such as muscle, connective tissue and heart provides both the variety of nutrients and textures which stimulate digestive processes in the most effective way. Dolina Noteci SUPERFOOD goose contains also fruit and vegetables such as: carrots, spinach, pears, blueberries, raspberries, tomato, oranges, peas and goji berries, which supplement the daily diet with microelements, which in turn significantly support the work of the digestive tract. It also contains flaxseed, Mojave yucca and seaweed, which support the proper functioning of intestines, as well as rosemary, which has antioxidant properties. Dried brewer's yeast and chicory inulin are sources of prebiotics, which have a positive effect on the dog's immune system. Both the composition of the food and its consistency guarantee its high palatability. Compliance with the recommended amount of food prevents dogs from becoming overweight or obese. A good supplement to a diet based on dried petfood is to give your dog fresh water to drink, which naturally supports absorption of its ingredients.

Composition: goose 26% (meat, hearts, liver, gizzards), beef 26% (meat, hearts, tripes), chicken 18% (meat, hearts, liver), pork 10% (meat, lungs, kidneys), chicken fat, eggs, pea starch, carrots, minerals, powder cellulose, spinach, pear, blueberries, raspberries, tomato, Plantago seed, oranges, peas, dried brewer's yeast (containing prebiotics: mannan-oligosaccharides and β -glucans), lecithins, chicory inulin (prebiotic), goji berries, linseed, Mojave yucca, seaweed, New Zealand green-lipped mussel, glucosamine, chondroitin sulphate, dried rosemary 0.02%.

Technological additives: natural antioxidants (tocopherols, rosemary extract).

Analytical constituents: crude protein – 36%, crude fat – 18%, crude ash – 7%, crude fibre – 3%, moisture – 9%.

Additives: nutritional additives/kg: Vitamin D₃ – 450 IU, Vitamin E – 40 mg, Zinc (zinc oxide) – 30 mg, Manganese (manganese (II) oxide) – 2 mg, Copper (copper (II) sulphate, pentahydrate) – 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) – 0.3 mg.

Energy value: 374 kcal / 100 g.

Composition: beef 36% (meat, hearts, tripes, liver), chicken 29% (meat, hearts, liver), pork 15% (meat, lungs, kidneys), chicken fat, eggs, pea starch, carrots, minerals, powder cellulose, spinach, blueberries, raspberries, Plantago seed, oranges, peas, dried brewer's yeast (containing prebiotics: mannan-oligosaccharides and β -glucans), lecithins, chicory inulin (prebiotic), chia seeds, linseed, Mojave yucca, seaweed, New Zealand green-lipped mussel, glucosamine, chondroitin sulphate, dried rosemary 0.02%.

Technological additives: natural antioxidants (tocopherols, rosemary extract).

Dolina Noteci SUPERFOOD duck recipe is a complete dried food intended to meet the nutritional demands of adult dogs of all breeds; its composition includes nutrients and biologically active compounds. 100 g of the finished product is made from as much as 200 g of fresh meat and animal products from beef, chicken and pork. What is more, the mild drying process preserves as many of the nutrients as possible from the raw materials used to make the food. Meat and animal products from duck provide valuable protein rich in amino acids and are a source of the elements: magnesium, selenium, iron and copper - minerals that play an important role in regulating the function of skin and muscle tissue. Duck meat is also a source of the important vitamin B12 and fat-soluble vitamins. Addition of chicken egg and chicken fat enriches Dolina Noteci SUPERFOOD with essential n-6 unsaturated fatty acids. Bioactive compounds contained in yams, carrots, banana, apple, spinach, blue-berries, raspberries, orange, peas and goji berries are known for their antioxidant and anti-inflammatory properties. They significantly inhibit changes associated with ageing, development of atherosclerosis and liver damage. Gastrointestinal functions, both digestive and secretory, are supported by the additives flaxseed, Mojave yucca and seaweed. Addition of brewer's yeast and chicory inulin stimulates proper condition of the coat and maintains proper composition of intestinal flora. Dolina Noteci SUPERFOOD dried food is supplemented with green lipped mussel, which is responsible for maintaining appropriate condition of joint cartilage and has anti-inflammatory effect on bone tissue. Addition of lecithin has a protective effect on every living cell in the dog's body while rosemary has antioxidant properties. Compliance with the recommended amount of food prevents dogs from becoming overweight or obese. A good supplement to a diet based on dried petfood is to give your dog fresh water to drink, which naturally supports absorption of its ingredients.

Composition: duck 26% (meat, hearts, liver, gizzards), beef 26% (meat, hearts, tripes), chicken 18% (meat, hearts, liver), pork 10% (meat, lungs, kidneys), chicken fat, eggs, pea starch, sweet potatoes, carrots, minerals, powder cellulose, banana, apple, spinach, blueberries, raspberries, Plantago seed, oranges, peas, dried brewer's yeast (containing prebiotics: mannan-oligosaccharides and β -glucans), lecithins, chicory inulin (prebiotic), goji berries, linseed, Mojave yucca, seaweed, New Zealand green-lipped mussel, glucosamine, chondroitin sulphate, dried rosemary 0.02%.

Technological additives: natural antioxidants (tocopherols, rosemary extract).

Analytical constituents: crude protein – 36%, crude fat – 18%, crude ash – 7%, crude fibre – 3%, moisture – 9%.

Additives: nutritional additives/kg: Vitamin D3 – 450 IU, Vitamin E – 40 mg, Zinc (zinc oxide) – 30 mg, Manganese (manganese (II) oxide) – 2 mg, Copper (copper (II) sulphate, pentahydrate) – 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) – 0.3 mg.

Dolina Noteci SUPERFOOD game recipe is a complete dried food for adult dogs of all breeds, which covers the daily requirement for all nutrients. The varied and valuable composition includes 80% fresh meat and animal products from game, beef, chicken and pork, which are a source of protein with very high digestibility, rich in all essential amino acids. An innovative method of production based on mild drying of meat and animal products and appropriate selection of raw materials makes the food easily digestible and adapted to the nutritional requirements of adult dogs. The warm air drying process makes it possible to obtain 100 g of food from as much as 200 g of meat and offal, while retaining its palatability and the necessary nutrients. Selection of raw materials rich in various tissues such as muscle, connective tissue and heart provides both the variety of nutrients and textures which stimulate digestive processes in the most effective way. Dolina Noteci SUPERFOOD game contains fruit and vegetables such as carrots, pumpkin, banana, spinach, blueberries, raspberries, oranges, peas and asparagus, which supplement the daily diet with biologically active compounds, which in turn significantly support the digestive system. It also contains chia seeds, flaxseed, Mojave yucca and seaweed, which support normal bowel function, as well as rosemary for its anti-oxidant properties. Both the composition of the food and its consistency guarantee its high palatability. Compliance with the recommended amount of food prevents dogs from becoming overweight or obese. A good supplement to a diet based on dried petfood is to give your dog fresh water to drink, which naturally supports absorption of its ingredients.

Composition: game 26% (meat, hearts, liver), beef 26% (meat, hearts, tripes), chicken 18% (meat, hearts, liver), pork 10% (meat, lungs, kidneys), chicken fat, eggs, pea starch, carrots, pumpkin, minerals, powder cellulose, banana, spinach, blueberries, raspberries, Plantago seed, oranges, peas, asparagus, dried brewer's yeast (containing prebiotics: mannan-oligosaccharides and β -glucans), lecithins, chicory inulin (prebiotic), chia seeds, linseed, Mojave yucca, seaweed, New Zealand green-lipped mussel, glucosamine, chondroitin sulphate, dried rosemary 0.02%.

Energy value: 374 kcal / 100 g.

Dolina Noteci SUPERFOOD lamb recipe is a complete dried food intended to meet the nutritional demands of adult dogs of all breeds, its composition includes nutrients and biologically active compounds. 100 g of the finished product is made from as much as 200 g of fresh meat, lamb, beef, chicken and pork. It is important that the drying process preserves most of the qualities of the fresh ingredients used in production. Lamb is a source of zinc, a mineral which plays an important role in regulating skin function. It is also a source of vitamin B12 and niacin, which are important for the dog's organism and are highly effective in reducing blood cholesterol and have a beneficial effect on the nervous system. Addition of chicken egg and avocado enriches Dolina Noteci SUPERFOOD with essential n-6 unsaturated fatty acids, which have antioxidant and anti-inflammatory properties, as well as inhibiting age-related changes and preventing atherosclerosis. Gastrointestinal functions, both digestive and secretory, are supported with addition of chia seeds, linseed, Mojave yucca and seaweed. Fruit and vegetables such as yams, carrots, avocados, spinach, blueberries, raspberries, cranberries, oranges, peas, asparagus, dried brewer's yeast, and chicory inulin are a source of prebiotics for a healthy coat and healthy intestinal flora. Another valuable addition to Dolina Noteci SUPERFOOD is green-lipped mussel, which is important for maintaining appropriate condition of joint cartilage and has anti-inflammatory effect on bone tissue. Compliance with the recommended amount of food prevents dogs from becoming overweight or obese. A good supplement to a diet based on dried petfood is to give your dog fresh water to drink, which naturally supports absorption of its ingredients.
